

Unshakeable Signal Unmatched Value

A Paddle Isn't Good Enough Anymore

Traditional paddle antennas often sacrifice aesthetics or resilience for signal performance. The **CP Stage™ Antenna** changes the game — **IP44 rated** tough enough for the road, sleek enough for the spotlight, and priced to fit your setup, not wreck your budget. Stop chasing dropouts with paddles, switch to circular polarization at an affordable price with **CP Stage**.

For More Information:

Enhanced Signal Protection. Rugged Design.

- IP44 rated that handles your outdoor set up or permanent install
- Engineered to withstand the demands of the road
- Pro-grade performance with circular polarization
- Ideal for visible stage setups and wireless systems

Wireless Just Got Smarter – and Better Looking

- Compact, circularly polarized antenna optimized for IEMs and mics
- Unique aesthetic that is low profile and great looking
- Clean wireless performance in crowded RF environments
- Outperforms legacy paddles and easier to store than bulky helical antennas
